You will not find a better built home and a home with so many features.

We guarantee it.

Good home builders realize that home technology used to dramatically improve the home owner's lifestyle. From the latest in building materials to energy savings/environmental construction to home theaters and home automation.

Capital Home Builders is the First RESNET builder in South Georgia.

RESNET Energy Smart Builders are leading the transformation of the housing towards high energy performance homes. These leading builders are committed to having all of their homes energy rated following RESNET's stringent standards and marketing their homes' HERS Index and built to higher-performance.

We are the only builder in South Georgia and North Florida building HERS Rated homes with a score of 54 this puts CHB Homes on the top 1%ER in the U.S. building high-performance homes, what does this mean for our home buyer's? A utility bill of \$50/per Month for a custom smart 2,500 Sq. Ft. home. ("This is a CHB gift that keep on giving" When buying a new home in Thomasville and South Georgia if it's not a high-performance home than it's built with old technology and minimum code.
